WatchGuard™ Security Solutions

SOFTWARE   HARDWARE   SERVICES

"ECRS stands ready with new top-notch durable network appliance offerings, which will make your networks more secure and easier to manage. These new product offerings, along with ECRS baseline network settings, were selected with reliability, security, interoperability, and adaptability in mind."

MATTHEW MELLON, CISSP, QIR
ECRS Chief Information Security Officer

Network Security You Can Count On

A reliable network forms the foundation of a reliable POS system; it's critical to go with a provider that offers secure, durable, affordable, and adaptable solutions for the varied needs of varied business models. The robust networking functions of WatchGuard (along with the specialized configuration settings made by ECRS) provide the necessary foundation to unleash the full might of CATAPULT's Unified Transaction Logic™.

Highly-Accessible ECRS Support

When you implement WatchGuard solutions into your store network and pair them with the CATAPULT® POS platform, you'll always have quick and easy access to ECRS' world-class, award-winning, US-based support team for immediate assistance. ECRS will provide retailers with unparalleled support and security, constructing custom configurations based on retailer needs and offering easy access to company engineers. This ensures delivery of exceptional service.

- ► Works with digital® VPN Hardware
- ► Complete Network Visibility
- ► Cloud-based Option for Centralized Management
- ► Secure Wi-Fi for you and your Shoppers
- ► World-class Support from ECRS

Upgrade Infrastructure at Your Own Pace

WatchGuard Firebox routers from ECRS are wholly compatible with existing ECRS DVPNC/ASUS site-to-site and site-to-cloud deployments. You can operate both OpenVPN tunnels and IPSec tunnels simultaneously. This means you you can extend and replace your network infrastructure at your own pace.

Designed for Scalability

Hardware and services are available for businesses of any scale, from one store location to thousands. WatchGuard Firebox wireless routers support either a choice of 2.4 GHz or 5 GHz bands, or are capable of operating both simultaneously.

Stay Ahead of Threats in a few Clicks

WatchGuard continually improves Fireware (the operating system for their Firebox family of routers) and firmware updates can be applied in just a few simple clicks without difficult or lengthy procedures.

Extended Longevity

The WatchGuard Firebox lineage of network security appliances has an excellent track record for device longevity. Standard WatchGuard support availability extends for 5 years past end-of-sale for each model.

If you'd like to learn more, please read our whitepaper, *Secure Network Solutions from ECRS*. To begin implementing these solutions into your enterprise, submit a ticket via myECRS or contact our Customer Care team at 1.800.211.1172.

About WatchGuard

WatchGuard has been providing secure network solutions for over 20 years while staying on the bleeding-edge of cyber security. They have provided over 80,000 small-to-midsize enterprises with the most secure and easy-to-manage network solutions all around the world. ECRS carefully selected WatchGuard to provide you with an absolutely secure network solution to keep your data protected from the latest threats.
